Semi-Double Tree Peony Flower

JAPANESE TREE PEONIES

All plants in this group have bloomed and have been carefully labelled as to type of flower and color. When ordering, please specify your preference for single, semi-double or fully double flowers and the color you desire. Plants are at least seven and eight years old and priced according to color, quality and doubleness of flowers.

SELECTIONS of single pink, rose or purple flowers \$5.00, \$7.50 and \$10.00. Doubles of these colors \$10.00, \$12.50 and \$15.00.

Single red or white flowers \$10.00 and \$12.50. No doubles of these colors available this season.

GRAFTED PEONY OFFER

Each year some exceptional seedlings are marked in bloom. These are perpetuated by grafting on strong roots. Two to three year plants in 1-gallon containers, assorted colors unlabelled, \$3.50 each.

THE COLORFUL HISTORY OF THE TREE PEONY

The Tree Peonies are native to the mountains of China and were introduced into Korea by the Jesuit priests. From Korea they were taken to Japan and early in the nineteenth century plants found their way to Europe. In America we have plants originating in Japan and in Europe, distinct in form because of their different sources.

The Japanese worked with the Moutan species, single to semi-double flowers with golden stamens and produced flowers with a wide range of colors, from white to deep purple including shades of pink and red. Some have a blotch at the base of the petals and all face upward.

The "European Type" originated from Banksi species, a fully double form with a crook in the stem at the base of the flower. Lutea hybrids came from the wild Lutea species and were developed in France to give us large handsome flowers of yellow and bronze shades.

YELLOW LUTEA HYBRIDS

Varieties resulting from crosses of Lutea and Moutan species; flowers are fully double and predominantly yellow. Blooms later than Japanese and European types. Plants are supplied as grafts capable of blooming the year after planting.

ALICE HARDING. Large fully double flowers are pure yellow, fragrant. \$10.00 each.

CHROMATELLA. Fragrant fully double flowers are sulphur yellow edged orange-salmon. \$7.50 each.

MME. LOUIS HENRY. Single fragrant flowers are a blend of buff and pink with shades of salmon and deep yellow; purple mark at base of petals. \$5.00 each.

SOUVENIR DE MAXIME CORNU. Large fully double flowers are exceptionally fragrant. Deep yellow petals are suffused with copper. \$7.50 each.

TREE PEONY SEEDS

We have a limited supply of seeds from our big collection of Japanese flower types. Seeds are selected only from the best types and colors. Pkt. of 25 seeds, \$2.00; 50 seeds \$3.00; 100 seeds \$5.00. Postpaid.

US TREE PEONIES

HOW TO PLANT PEONIES

Size comparison of Seedling and Grafted Plants. Plant on the left is the size you get when you order one of our seven to eight year old seedlings (approx. 30 inches). Plant on right is a 3-year old graft on herbaceous peony root (approx. 14 inches).

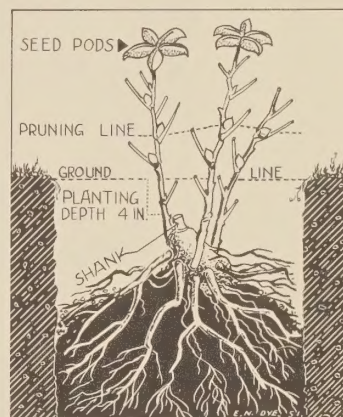

This is a grafted plant on herbaceous peony root. Note new roots developing from the Tree Peony stock. This is 3-year graft.

Same grafted plant pruned and set in planting hole. Soil must be friable for good root growth. Note planting depth.

This seedling plant is about seven years old, as dug from the field.

Same seedling set in hole. Note planting depth and pruning line.

Domoto's Double Transvaal Daisies

We are pleased with our prize-winning strain, representing 15 years of selection after crossing the finest European and American double Gerberas. The result is a wide range of forms and colors and exceptional size; many blooms measure 5 to 6 inches across.

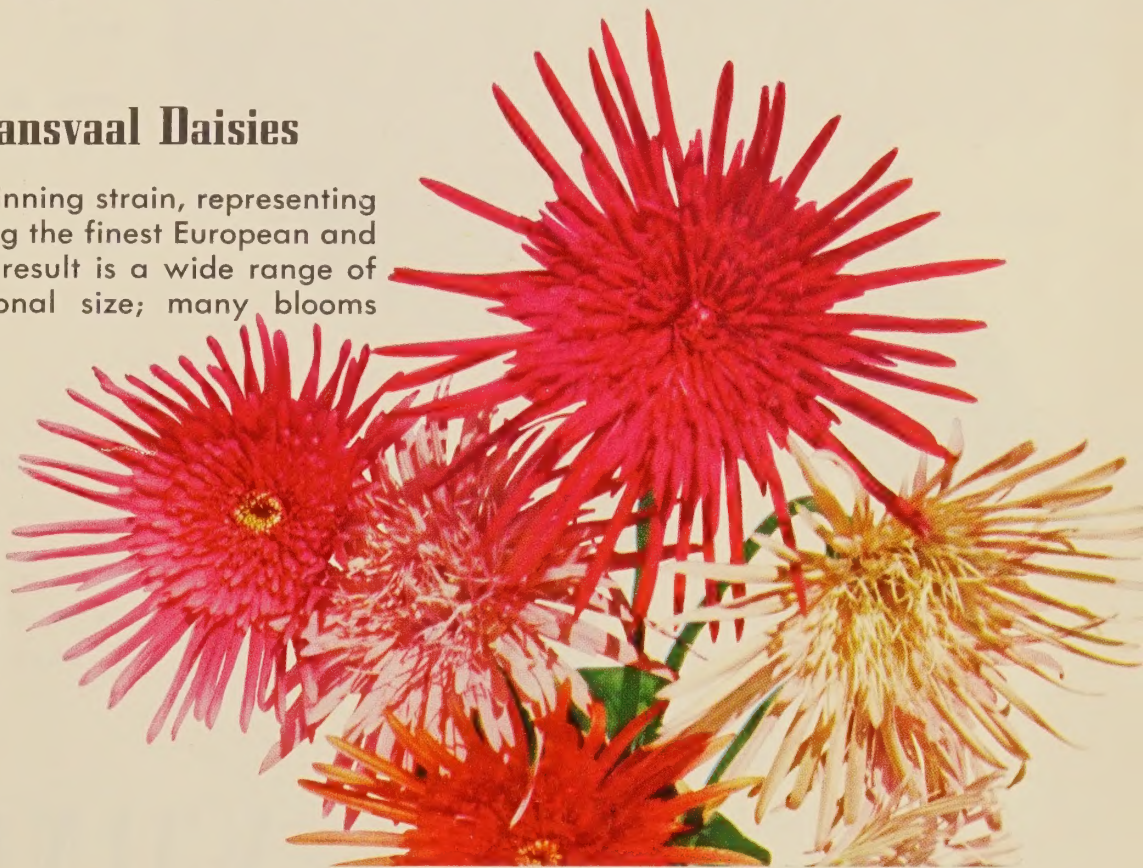

CULTURAL DIRECTIONS

PLANTING. A sunny spot in well-drained soil with protection from prevailing winds. Plant Gerberas in raised beds for perfect drainage if necessary. Use well-rotted manure and peat moss to condition the soil before planting. Set crowns of plants exactly at soil surface level. **FEED** frequently during the growing season, but stop in August. Use a well-balanced commercial fertilizer. **IRRIGATE** thoroughly once a week during the late spring and summer months.

PEST CONTROL. Spray regularly during summer for red spider mites. Use any good spray containing malathion.

PLANTS OF DOMOTO'S FAMOUS
DOUBLE GERBERAS ARE READY NOW.

One-gallon containers: \$1.25 each at nursery,
\$2.50 each prepaid anywhere in U.S.A.

AND FINEST COLLECTIONS IN THE WEST

DOMOTO'S CAMELIA JAPONICA

E—Early M.—Midseason L.—Late	12"-18"	18"-24"	24"-30"	30"-36"
ADOLPHE AUDUSSON VAR.	3.50	6.50	7.50
Deep red blotched white form of Adolphe Audusson. M.				
ANEMONAEFLORA				
Large, white anemone form. One of the best from Australia. Strong grower. M.				
ALBA (Australia)			10.00	
Light pink, striped carmine, medium large semi-double. Upright, compact growth. M.				
ANN MILLER	3.50	10.00	
Light salmon pink. Large semi-double peony form. Compact growth. M-L.				
BRIDE'S BOUQUET	5.00		
Very large, white semi-double with fluted and notched petals. Medium, open growth. M-L.				
CHOYO-NO-NISHIKI	3.50	4.00	7.50	10.00
Pink striped vivid red. Medium semi-double. Recommended for tubs. E. Dec.				
CINDERELLA (U. S. Pat. No. 1281).	5.00	7.50		
A fimbriated and serrated semi-double shell pink bloom with white edges. First All America Camellia Selection. M.				
C. M. WILSON	3.00	5.00	7.50	10.00
A beautiful soft light pink sport of Chandleri Elegans. Possibly the most sought after form. E-M.				
CONRAD HILTON	7.50	10.00		
A brand new addition to the Daikagura family. Egg shell white sport of High Hat. Very early. Slow compact growth. E-L.				
DAINTY (California)	4.00		7.50	
Blush white striped red with fringed petals. Single. M-L.				
DAINTY MISS		5.00		
New. Soft pink at base to darker pink at outer edges. Loose rose form double. M.				
DAITARIN	3.50		7.50	10.00
Light rose pink. Large single with mass of bluish white petaloids in center. E-M.				
DESTINY — 1 year graft at	7.50			
An attractive sport of Grandiflora Rosen. Pink and light pink striped variegation. Habit and form similar to parent. Sported in 1951.				
DONCKELARI (English & Mitchell strain)	3.00	5.00	7.50	
Red marbled white in varying degrees. Large semi-double. Slow, bushy growth. M.				
DR. JOHN D. BELL		7.50		
Dark red. Heavily variegated white form of Beau Harp. M.				
DR. TINSLEY	5.00			
Very pale pink at base, deeper pink at edge. Semi-double. M.				
EDITH LINTON (Australia)		7.50		
Rose shading to silvery pink. Large irregular semi-double. Very beautiful. M.				
ELEANOR McCOWN		5.00	7.50	
White streaked red and pink. Large semi-double to anemone form. Vigorous, loose, upright growth.				
FROSTY MORN (Harvey Short)	7.50	10.00		
A very large white anemone to peony form with beautiful long, narrow, slightly twisted foliage. Medium, open, upright growth. M-L.				
GLEN 40	3.00	4.00	5.00	7.50
Orange-red. Very symmetrical, edged formal double. Slow, compact growth.				
GLEN 40 VAR.	3.50	4.50		10.00
Orange-red spotted with white form of Glen 40. M-L.				
GIULIO NUCCIO	10.00	25.00		
Coral rose pink. Very large irregular semi-double, upright habit. M.				
HELEN HUNT		5.00		
Rose-pink. Medium, full peony form. Vigorous, compact, upright growth. M.				
HELEN K	5.00			
Medium full peony form with unusual color tone of soft pink toward edges. Vigorous, compact grower. E-M.				
HISHI KARATO	3.50		10.00	
Soft pink. Small bell-shaped semi-double. Slow compact growth. M.				
JEAN LYNE (Australia)		7.50		
Large, variable flower, white to bluish pink, with red stripes or flecks. Semi-double. M.				
JESSIE KATZ (U. S. Pat. No. 1107).	6.00			
Semi-double watermelon pink with large wavy petals. Medium, compact growth. M-L.				
JOSHUA YOUTZ	3.00		6.00	10.00
Large, white peony form to formal double. Slow, compact growth. E.				
KENNY	3.50	5.00	7.50	
Deep rose-pink blotched white. Large semi-double to peony form. Slow, compact growth. L.				
LADY KAY	4.00	7.50		
Red mottled white sport of Ville de Nantes. Petals fimbriated. Form varies from full peony to thick semi-double.				
LAWSON NO. 1	5.00			
Red and white striped peony form. Small boutonniere type. M.				
LENA JACKSON	4.00		7.50	
Blush pink. Large formal to rose form double. Medium, vigorous, bushy growth. M.				
MANANA	4.00			
Dark red. Large, semi-double to peony form. Vigorous, sturdy growth. E-M.				
MANDARIN	5.00			
Large, irregular formal double. Glowing red. E-L.				

Sasanqua Camellias

E—Early M.—Midseason L.—Late	12"-18"	18"-24"	24"-30"	30"-36"
CHARMER	4.00			
New. Large, single white edge salmon-pink. Upright open growth.				
CHOJI-GURUMA		3.50		
Rose-pink, full anemone form with lighter pink petaloids. Upright growth.				
CLEOPATRA		3.50		
Rose-pink, semi-double to peony type. Very compact.				
DAWN		3.50	7.50	
Ivory white with bluish pink at the margins of petals. Single to semi-double. Upright, compact growth.				
DAYDREAM	4.00			
Large, single, white edged deep rose pink.				
HANA DAUIN		3.00		
Deep rose-pink. Large semi-double.				
HINODEGUMO	4.00			
Large, single white with pink edge. Vigorous, upright, bushy growth.				
HINODE-NO-UMI	4.00			
New. Very beautiful deep crimson, large, flat single. Profuse bloomer. Upright, compact growth.
